To All Concerned Citizen:

Ref: Downtown Gravenhurst - "Building A Future"

The downtown is experiencing many changes and some people feel that we risk losing a viable vital business environment as a result. It is time to develop new ideas and opportunities and to build on the successes that exist.

To this end we propose that all concerned come together as a community and brainstorm what the retailers, property owners, municipality and public can do to ensure that downtown Gravenhurst thrives.

I invite you to a brainstorming session on Wednesday February 9 at 6:00 PM. Location: the Trillium Room at the Opera House.

The information from the brainstorming will be provided for follow up to all responsible organizations for development of action plans in the short and long term.

Come, bring your ideas.

Yours truly,

Paisley Donaldson
Mayor
